### Who Should Attend

Grades K - 12 Teachers, Parents, Educational Assistants, Coaches, Administrators, District Leaders and other School-based Staff

### About this Learning Opportunity

*In addition to our need to support students who are currently experiencing Mental Health challenges, research is indicating that more focused approaches for teaching Social Emotional Learning (SEL) skills to all students supports academic success. Students do so much better when they can identify what they are feeling, manage their emotions, show empathy and resolve conflicts. Furthermore SEL is important to increase the mental health resiliency we all need for the trauma, losses, stresses and strains that come our way over time.*

This day-long workshop will focus on 3 Major Themes:

1. Incorporating SEL in every classroom – Going Beyond Awareness
  - Teachers as Human Developers – It has always been the case!
  - The Research Evidence for SEL impact on Achievement
  - SEL Core Competencies for All to Know and to Integrate
  - The Power of a Circle – a practical way to teach so much
  - More Strategies to Get Going
2. The Evolutionary Brain
  - Understanding Executive Functions to Manage Emotions
  - Kids Love this Stuff and can use it
  - Readiness to Learn – Factors to consider in every

### About the Facilitator(s)

**Partick Carney, Ph.D.** has a long-standing interest in the promotion of positive mental health. Hailing from a family of 10 children in a farming community he appreciates the vital role of the whole school community to help raise resilient children.
