Session Code:	18-CT-111

Target Audience

Beginning to Advanced CTF Teachers

About this Learning Opportunity

The key to quality professional learning is that the opportunity must be job embedded and relevant. This will not be a traditional 'sit and get'. Roll up your sleeves and join this working group series as we work together in designing challenges and CTF lesson/unit plans throughout.

Designing prototypes, receiving feedback, and revising and reflecting on the work will be incorporated throughout all three days. In addition to planning time, you will have a chance to engage in dialogue regarding your professional challenges of practice throughout this planning series.

You will work independently and cooperatively throughout the morning. You will be invited to show-case your work and will have a chance to edit the work based on personal and peer reflections.

This learning opportunity is being provided through funding from Alberta Education.

About the Facilitator(s)

Louise Osland has been an educator for over 40 years and prior to joining Edmonton Regional Learning Consortium, she worked as a principal and supervisor with Edmonton Public Schools. She has led AISI projects, managed teams, facilitated sessions and collaborated with colleagues.
