About this Learning Opportunity

What happens when you have a child who is far behind while another one is becoming bored?

Come and learn about activities that are easy adaptable and differentiable. We will also discuss how to spiral your math class to ensure the essential ideas are weaved into your entire year, or semester. We will look at both short term and long term solutions.

This session addresses the TQS competency #3: Demonstrating a Professional Body of Knowledge

This learning opportunity is being provided through funding from Alberta Education.

About the Facilitator(s)

Dave Martin has a Master of Mathematics, a Bachelor's degree in Education, and most importantly a Love for Learning. Throughout his career, he has challenged many traditional educational practices such as homework, tests, and even grading. Currently as a Division Math/Science Lead Teacher, Dave has the opportunity to learn with teachers, and students, from Pre K - Grade 12. You will find Dave tinkering with code, playing with mathematics, or counting by prime numbers.
