About this Learning Opportunity

Breaks are not often understood or used as effectively as possible to support students. Together, we will discover practical ways to implement breaks, work with challenging behaviours and help students learn to self-regulate for optimal learning. We will also examine proactive versus reactive strategies and how to use breaks and rewards in a more positive manner. This will be an interactive session with lots of opportunities to practice.

About the Facilitator(s)

Sheila Chisholm's interest in special needs started in elementary where she supported a segregated learning classroom during lunch hour. Sheila soon developed a passion and desire to change the way society interacts with those in the disabled community. While attending U of S, she worked with families with children with special needs and began to work towards behavior consulting and interventions. Sheila worked for Transitions where she discovered a connection with autistic children and a deep desire to learn more. She joined Family Linkages Foundation for Autism, and began her journey as a behavior interventionist. Sheila had the privilege of working on the PUF Team as well as the ELT Team in the St. Albert Public School Division for 12 years. In this capacity, she has worked with a multi-disciplinary team of therapists to cultivate the best learning environment for students. She currently supports the Sturgeon School Division as a Parent Coach for Disabilities Services Families.

Sheila started Infinite Resources Inc. as a means to support all families and look beyond diagnosis and delays. She believes providing coaching and consulting to families, community organizations allows her to truly create a company that looks at strengths, community and family as a path for inclusion. IRInc has now been running inclusive social programs for 13 years.
