Date:	April 23, 2024
Time:	4:00 pm – 5:00 pm
Cost:	
Location:	Virtual
Type:	Webinar
Session Code:	24-TI-179

Target Audience

Digital Skills for Students: What should my students be able to do? Repeat

About this Learning Opportunity

Do you ever wonder what digital skills your students should have at their grade level? Do you wish there was an easy way to get them techy without stress and make online projects easier? No, this isn't an infomercial pitch. Darren has created a digital skills scope and sequence that not only lists skills, it contains a choice board with all of the videos, resources, and templates you will need to take your students from zero to sixty with their technology skills. In this session we'll look at how to use these resources to make your class capable and competent in their digital environment.

About the Facilitator(s)

Darren Maltais

After years of experience as a classroom teacher, Darren began working as a Technology Integration Facilitator for Black Gold School Division. This year will mark his 10th year in that role! He works collaboratively with teachers and students in over 30 schools, co-creating lessons, projects, and products to help students learn more effectively and make curriculum come alive. He has helped to create one of the most comprehensive sites of digital resources for teachers. Darren supported teachers in his district as they transitioned to online learning and back over the past two years, offering hundreds of sessions on a variety of technology tools. Darren is a Google Certified Educator, a Google Certified Trainer, and a musician who performs regularly.
