

Grade 3- Bringing it Together in Science: Planning for Teaching and Assessing by Integrating Matter and Scientific Methods

Facilitator(s):	Nicole Lamoureux
Date:	September 20, 2023
Time:	3:45 pm – 5:00 pm
Cost:	
Location:	Virtual
Type:	Webinar
Session Code:	24-NC-224

Target Audience

Grade 3 Teachers, School-based Administrators, Instructional/Learning Coaches, District Leaders/Consultants, Educational/Instructional Assistants

About this Learning Opportunity

This session will look at developing a series of lessons to teach and assess the investigation of how matter can change state if heated or cooled. Teachers will learn how to plan, teach and assess an investigation to help build student understanding. As well, learn to identify opportunities to integrate ELAL and Math to make your science lessons more robust. Walk away with resources you can use in your classroom.

About the Facilitator(s)

Nicole Lamoureux

Nicole has over 20 years of teaching experience from grades 1-6. She served as the Elementary Science Consultant with ECSD. Nicole has a passion for elementary science education and is a member of the Ambitious Science Teachers, a collaborative group of science education researchers, consultants and teachers who strive to improve science pedagogical practices grounded in evidence based approaches.
