Cost:	
Location:	Virtual
Type:	Webinar
Session Code:	24-NC-435

Target Audience

Grade 6 Classroom Teachers

About this Learning Opportunity

This session will focus on the Organizing Idea: Number, specifically looking at the understanding of the following Learning Outcomes:

- Students investigate magnitude with positive and negative numbers

This session for grade 6 will focus on understanding the changes, key vocabulary, and how the Knowledge, Understandings, Skills and Procedures work together to help bring understanding to the learning outcome.

Specific strategies for learning and teaching as well as support resources will be shared as part of the learning.

About the Facilitator(s)

Betty Morris

Betty Morris has been a math educator for over 40 years. Her various roles included classroom teacher, district math consultant, math exam manager/new initiatives for Alberta Education, and sessional instructor at Concordia University in Edmonton.

Betty's interest in supporting teachers and students in their understanding of mathematics and instilling in them the confidence and passion that she has for mathematics, continues as she provides professional learning to districts and schools, working with both teachers and students. A priority for her is helping all stakeholders to understand and work with the new math curriculum.
