Cost:	
Location:	Virtual
Session Code:	24-MA-533

Target Audience

High School Teachers

About this Learning Opportunity

Starting at the end of September we will begin our High School Mathematics Cohort! Through monthly meetings (60 minutes after school), we will create a collaborative virtual PLC. This cohort will discuss ways to create engaging environments for learners, high leverage strategies to create inclusive environments, best practices around instruction and assessment, and many other topics that will lead to a joyous experience for your students in your classroom. The timeline, topics, and ideas will be based on the needs and wants of the cohort.

About the Facilitator(s)

Dave Martin

Dave Martin has a Master of Mathematics, a Bachelor's degree in Education, and most importantly a Love for Learning. Throughout his career, he has challenged many traditional educational practices such as homework, tests, and even grading. Currently as a Division Math/Science Lead Teacher, Dave has the opportunity to learn with teachers, and students, from Pre K - Grade 12. You will find Dave tinkering with code, playing with mathematics, or counting by prime numbers.
