

## Parkland - Number Sense, Numeracy and Gallery Walks

<b>Facilitator(s):</b>	Keith Van De Keere
<b>Date:</b>	November 03, 2014
<b>Time:</b>	9:00 am – 12:00 pm
<b>Cost:</b>	No charge
<b>Location:</b>	Stony Plain (Parkland School Division - Centre for Education) 4603 - 48 Street
<b>Session Code:</b>	15-DD-PSD-004

### Target Audience

Math Teachers

### About this Learning Opportunity

This learning opportunity will offer numeracy strategies and practical approaches to address the numeracy learning needs of students.

All learning opportunities with the ERLC regional team will include a focus on the intent of Inspiring Education, the ministerial order for student learning and curriculum redesign. This session will be grounded in numeracy principles, the Alberta context and offer practical pedagogy around supporting numeracy learning.

### About the Facilitator(s)

**Keith Van De Keere** is a recently retired school administrator who has focused his last 7 years on being a Math Curriculum Coordinator and Coach for school districts, working with teachers in workshop settings as well as providing in-class support for individual teachers from Kindergarten through Grade 8.

He asks teachers to provide student focused learning within a community of learners. This requires teachers to become better “kid watchers” in order to find what is really understood by students, and then responding accordingly.

Keith has recently been chosen to work in western Canada with Cathy Fosnot to provide learning opportunities for teachers who want to create and maintain a dynamic math classroom experience for kids.

*This learning opportunity is being provided through funding from Alberta Education.*
