Cost:	\$20.00
Location:	Virtual
Type:	Webinar
Session Code:	22-TI-052

Target Audience

Teachers, School-based Administrators, Instructional Coaches, Learning Coaches, Inclusive Learning Teachers

About this Learning Opportunity

EdPuzzle is a great tool to package parts of a video for your students to watch and consider. By inserting markers and questions in your videos, you provide students with a more teacher-coached approach, pausing where appropriate, and asking questions to guide reflections. Monitor student work over time, and you'll be able to see the indicators of their growth clearly, and thus shape next steps in a more informed way. Scope out how Edpuzzle can help students in your classroom become more thoughtful consumers of the information you share with them over video. Curious about other apps? Google Slides and SMART Learning Suite also provide ways of presenting videos free of ads, and contextualized for learning. Although our focus will be EdPuzzle, we'll definitely also explore the potential within these other core apps to provide tailored support for teachers and students using video with each other.

This learning opportunity is being subsidized through funding from Alberta Education.

About the Facilitator(s)

An English teacher originally, Janet's career evolved over the years from classroom teacher to consultant, co-leading edtech integration across the province as a member of the 2Learn.ca and ARPDC provincial teams, to school and district leadership as a Department Head at Lillian Osborne High School and a TIPS (Technology Integration and Planning Supports) Consultant with Edmonton Public Schools. A Google Certified Trainer and SMART Certified Trainer, these days Janet brings both vision and practical strategies to help support your integration of G Suite and SMART Learning Suite, reputable third-party applications, makerspaces, digital citizenship and more, within today's emergent and shifting learning spaces. In her spare time, she enjoys the four generations of her family.
